

## **INVITATION FOR EXPRESSION OF INTEREST FROM LEADING VENDORS**

FOR A TOTAL SOLUTION for supply, installation, design & development of data intelligence exchange system (data warehousing, data mining, scenario development and reporting) system, integration of all data and system components where practicable, implementation and maintenance of necessary hardware, operating system, a relational database management system (RDBMS) and/or off-the-shelf software required for a comprehensive "Data Warehousing and Data Exchange Intelligence System "

Specifically the project requires developing infrastructure and processes for data collection, transformation and loading; data mining, data analysis with research and regulatory purposes; reporting and charting with multi-dimensional drill down capabilities.

DESM&E intends to setup a comprehensive "Data Warehousing and Data exchange Intelligent System for building data exchange system with respect to data received from panchyat wards, departments etc and create a data bank for multipurpose use.

In this regard DESM&E invites "Expression of Interest" from leading vendors of National class and standing to provide an end-to-end solution for building the said project .

### **3. ELIGIBILITY CRITERIA**

a) The vendor must have a consulting practice in the software and hardware sector specifically in the Data Management "Vendor" is either an entity or the lead bidder of a consortium (where more than one entity have partnered), which exhibits its interest in response to this EOI.

In case a consortium wishes to apply, the lead bidder should be reputed systems integrator and must have a consulting practice in the software and hardware development specifically in the data management sector . Lead bidder must provide list of partners indicating their individual roles (e.g. hardware, database, application software, etc.). Partners with expertise and experience in data management should be clearly marked. In case the lead bidder is different from software solution provider (Consortium partner implementing the main application software of Data Warehousing, Data Mining, Business Intelligence etc.)then the lead bidder should provide the legal agreement between the lead bidder and such solution provider.

b) The vendor should have successfully implemented a large project of similar kind in the Other states or companies.

c) The vendor should preferably have SEI CMMI level 5 and ISO 9001 certification or above.

d) The vendor should have or have access to, a software development and competency center in India.

e) The vendor and/or partners of the consortium should have valid authorization from and active relationship with Software licensor of Off-the-Shelf Software (computer software product, that are ready-made and available for sale, lease, or license), preferably for a minimum period of one year prior to the awarding of this project.

f) The vendor and/or partners of the consortium should have the ability to supply, install, design & develop business intelligence (data warehousing, data mining, scenario development and reporting) system; integration of all system components where practicable; implementation and maintenance of the total solution for the "Data Warehousing and Data Exchange Intelligence System." This should be demonstrated by way of documents to be submitted. Further:

i. the vendor and/or partners of the consortium who propose to supply the software shall have, or will have to establish a local representative office in Sikkim.

ii. the vendor and/or partners of the consortium who propose to supply the hardware shall have, or will have to establish, a local representative office in Sikkim with technical expertise and capability to supply and maintain the required hardware/ operating system, application software and the RDBMS.

iii. the vendor and/or partners of the consortium must have proven financial and organizational strength to undertake and execute the project.

#### 4. DOCUMENTS TO BE SUBMITTED BY ELIGIBLE VENDOR

Interested vendors confirming the above requirements may furnish the following:

a. Company Profile

b. Write up on company's experience as a provider of a total solution for establishing a Data Warehousing and Data Exchange Intelligence System or a similar kind of undertaking.

c. List of current/recent clients/references (related with aforesaid requirement) wherein project completed entails handling data of similar complexity and size as indicated in earlier.

d. Audited financial statements of latest three years. (In case of the consortium, for lead bidder and for each partner)

e. Expression of interest in the project.

The response along with the above required documents shall be delivered to the following address on or before August 30, 2010 (Friday) by 1600 Hrs (Indian Standard Time) in sealed envelope superscribing " Data Warehousing and Data Exchange Intelligence System."
