Proceedings of the Session

Seminar on presentation of BAC software i.e. BACDA (Block Administrative Center Department Application) was held at conference hall, Chintan Bhavan, Gangtok, Sikkim, the session was chaired by Shri. Birendra Chettri, SIO, NIC, Gangtok. The demonstration was given by Anup Lama on generating certificates for SC/ST, MBC, and OBC, stating that the concerned personnel will be given hands on training for operating the software.

Brief Summary of Discussion and Outcomes

- Demonstration of BACDA (Block administrative center department application)
- Accessibility of this software through the internet.
- Interconnectivity between various BDOs are maintained through a common server or data center
- Automated generation of certificates like ST, SC, MBC, OBC
- Software is designed having functions similar to windows XP for user friendly and ease of use.
- Logs and other histories will be maintained through back ups
- Software will be provided and installed in the BDOs with hands on training to the concerned BDOs and other concerned personnel
- User manuals will be provided to the BDOs.
- High end systems or the systems having good configurations should be provided with security features and anti-virus.
- Additional hardware like Laser printer should be provided.
- Internet connectivity should be provided to all the BDOs including Sikip and other BDOs where internet is not given
- BDOs should use the software efficiently.
